Entities that own, lease, or have any financial interest in agricultural land or land capable of being farmed must register with the MN Dept. of Agriculture's Corporate Farm Program.

Does this entity own, lease, or have any financial interest in agricultural land or land capable of being farmed?
 Yes No

Apparatus GBC is a public affairs consultancy working at the nexus of natural, social, and built systems. We provide both client-oriented consulting services and engage in independent and sponsored projects and advocacy. We help clients from across industries and sectors promote social justice and advance the common good. We offer our services exclusively to organizations and projects that seek to improve our social, natural, and built environments.

Our services and methods are premised on enhancing meaningful and inclusive deliberation around issues that present opportunities and challenges for different segments of society. In conducting our work, we insist on maintaining the highest ethical standards for research integrity, community engagement, and professional and political activities.

Ways in which we pursued and created public benefit in 2021 include supporting a variety of organizations, issues, and campaigns that align with our mission. Some details of this work include:

- Advocating for strong voter engagement in the municipal elections that took place in Minneapolis.
- Continuing our management of an issue campaign that seeks justice and equity through the legalization of cannabis for adult use. Apparatus started Minnesotans for Responsible Marijuana Regulation in 2019 and continues to advocate on behalf of the cause at and around the MN Capitol. Apparatus maintains the mnisready.org website, convenes stakeholders, works directly with legislators and other advocacy groups, and has been influential in the crafting of the policy introduced in the MN House, including House File 600 which was passed by the MN House of Representatives at the end of the 2021 legislative session.
- Working with large community-focused nonprofits to further their strategic objectives. In 2021, we worked with a regional nonprofit to help refine and activate its strategic initiatives work into tangible, measurable outcomes. Our work included facilitating conversations with a variety of stakeholders, distilling the conversations into actionable work plans, and producing an innovative reporting style that focused on outcomes and flexibility.
- Representing a variety of clients at the Minnesota Capitol. As always, our direct government relations and lobbying work has aligned with our mission to promote social justice and equity and environmental sustainability. By design, Apparatus works with a small group of clients each year to ensure we provide comprehensive strategy, lobbying, communications, and media services. In 2021, we lobbied on behalf of education equity, environmental protection, and civil liberties.

While the list above is not exhaustive of the work Apparatus performs, it is illustrative of the ways in which we hold ourselves accountable to fulfilling our general benefit corporation status through the product of our client projects.

The Board of Directors of Apparatus adopted IRIS (<https://iris.thegiin.org/>) as our third-party standard and determined it to be independent. This is the same standard we used in our prior report and it was applied consistent to that report. We selected IRIS because its performance metrics are best suited to our work product, which lends itself better to qualitative assessment rather than quantitative measurements.

The Board selected the following IRIS Metrics to evaluate our performance:

- Categories to Influence: describes the sector(s) in which the organization focuses and seeks to influence.
 - Local Government/Public Sector
 - Diversity and Inclusion
 - Education
- Social and Environmental Performance Reporting: indicates whether the organization reports its social and environmental performance to relevant stakeholders.
 - Apparatus provides transparent reporting of our work's social goals and impacts to partners, relevant stakeholders, and the public.
- Community Engagement Strategy: Indicates whether the organization implements a strategy to manage its interactions with local communities affected by its operations.
 - Community engagement is one of the three pillars of our organizational approach.
- Full-time Employees Female: Number of paid full-time female employees at the organization as of the end of the reporting period.
 - Our business is women-owned and predominantly female-staffed.
- Client Type: Describes the types of entities that are buyers or recipients of the organization's products/services.
 - Non-profit organizations
 - Advocacy groups and coalitions
 - Municipal governments
- Target Beneficiary Demographic: Describes the demographic groups of beneficiaries targeted by the organization.
 - Underserved or underrecognized communities
